He is very generally in proper sympathy with the co-operative movement. Too often, however, he refrains from even expressing his opinion in favor of it for fear of criticism from the department at Washington.

"It is said that the department is supported by the taxpayers' money, and that, therefore, it cannot favor any particular method of marketing. If, however, a new system of marketing is vital to the well being of the farmer, the department should give that method its wholehearted support.

"Co-operative marketing may be said rightfully to be the present policy of the government. Congress enacted a law expressly to authorize the formation of these associations. The President approves the movement. LaSalle County Legislator Runs on Wet Platform.

Hon. Lee O'Nell Browne, of Ottawa LaSalle County, who has been a outstanding figure in the Illinois legislature for the past twenty-three years, was in Dixon yesterday afternoon campaigning for his candidacy for the Democratic nomination for Governor of Illinois.

It is said of Mr. Browne that in his years of active service in the lower house at Springfield he has been responsible for the death of more bad and vicious legislation than any other one man in Illinois.

Mr. Browne is running on a wet platform and says in unqualified terms that he stands for repeal of the "search and seizure" laws and for an amendment to the Volstead Act which would give the people light wines and beer. His platform also contains a hard roads plank and he favors the proposed hundred millio and completion of the hard road sys factors in various counties embracing ble. Colonel Holles, soldier and adventurer, returns to England, the land of his birth, when war is declared with Holland. He comes to lodge with Martha Quinn, hostess of the Paul's Head, in Paul's Yard, London. The colonel asks his old friend, His Grace of Albemarie, to secure for him a place in the army.
